EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Walter Linder on January 30, 2008.

The application has been amended as follows:

In claim 1, line 10, after the phrase "nickel alloy" please add the phrase -- in a nickel plating bath --.

In claim 13, line 1, please change "claim 12" to -- claim 1 --.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The instant invention is distinguished over the prior art of record by forming an electroplated electrical interconnect on an integrated lead suspension or suspension component comprising the step of electroplating a first conductive material of nickel or nickel alloy in a nickel plating bath on an oxide-removed stainless steel metal spring layer to form a plated nickel or nickel alloy interconnect. The prior art of record neither teaches nor suggests the combination of limitations recited in the instant claims.

Applicant's argument filed on January 14, 2008 on pages 6-8 is found to be persuasive. The patent to Cowles et al. is directed to a soldering process for forming an

interconnect in a lead suspension system. Since a plating process using solder, which is commonly a tin and lead-based material, requires a reflowing step to form the electrical interconnect, it is fundamentally different from a metal electroplating process. Furthermore, there is no suggestion in the Cowles et al. to use a nickel-based material for forming the interconnect. Since the prior art of record neither teaches nor suggests the combination of limitations recited in the instant claims, one skilled in the art would not have been motivated to perform the claimed process.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
